ESSIC 2020 online Masterclass
1st ESSIC Interactive Course

Scientific Director: Jean-Jacques Wyndaele

WELCOME

WELCOME Message from ESSIC President

You are cordially invited to participate in the first online masterclass of the International Society for the study of Bladder Pain Syndrome.

During 4 sessions top level teachers will take you through the actual knowledge of this puzzling and devastating disease. By the end of the course you will have gained a clear image of when to suspect BPS/IC, how to properly diagnose it, including typologie, and the best existing ways for treatment. Social aspects, patient's perspective and psychological consequences will be discussed. Throughout the course there will be ample time to ask questions and advice during the webinars scheduled after each lesson session and as general session at the end. To evaluate your knowledge a list of questions multiple choice will be available. The correct answers will be given during the final webinar.

Best regards

Jean Jacques Wyndaele - ESSIC President
